

David Andrei Decă

Craiova, Romania | deca.david.andrei@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | [BugFix](#)

PROFILE

Computer Engineering student at the Faculty of Automation, Computers and Electronics, University of Craiova, with experience in C++, GDScript, PHP, game development and user-focused testing. Developed and published BugFix, an educational arcade game built in Godot, competed nationally in information technology and web development, and solved 60+ LeetCode problems.

EDUCATION

University of Craiova - Faculty of Automation, Computers and Electronics 2026-present
BSc in Computer Engineering, Computers specialization.
Liceul "Voltaire", Craiova - High School Graduate | 2022-2026. Romanian Baccalaureate diploma obtained in 2026. Relevant coursework: Mathematics, Computer Science, English and French.

PROJECTS & ACTIVITIES

- **BugFix** - Developed and published a 2D educational arcade/score-attack game in Godot using GDScript. Implemented four-direction movement, code-bug challenges, achievements, scoring, persistent progress and custom audio; iteratively tested gameplay clarity and user experience.
- **iTEC 2024 - Web Development** - Participated in the national iTEC competition, contributing mainly to backend development in PHP and integration with an HTML/CSS front end.
- **League of Legends** - Master rank and amateur esports experience, with an emphasis on teamwork, communication and performance under pressure.

ACHIEVEMENTS & CERTIFICATIONS

- **National Olympiad in Information Technology (ONTI)** - National Stage: Silver Medal (2023), Bronze Medal (2024), Participant (2025). County Stage: 2nd Prize (2023), 3rd Prize (2024, 2025).
- **National English Olympiad** - County Stage: Mention (2024), 3rd Prize - Section B (2025).
- **Global Science Opera Romania - English Creative Essay** - 2nd Prize, County Stage (2023); 3rd Prize, National Stage (2023).
- **Cambridge English Certificate** - C1, score 187/190. Honorary Diplomas for outstanding academic achievement awarded by Craiova City Hall (2022-2023 and 2023-2024).

SKILLS

- **Programming** - C++ (intermediate: algorithms, data structures, recursion and file processing), GDScript, HTML/CSS and PHP (basic); 60+ LeetCode problems solved.
- **Game development & testing** - Godot, GDevelop, gameplay systems, debugging, bug identification, user experience and iterative testing.
- **Tools** - Git/GitHub, Microsoft Office, Adobe Premiere Pro, Krita and Windows troubleshooting.
- **Communication** - Teamwork, clear writing, patience, problem solving and performance under pressure.
